

California Marine Life Protection Act Initiative
Science and Management Presentations to the MLPA Blue Ribbon Task Force and
MLPA Central Coast Regional Stakeholder Group
Revised May 11, 2006

Master Plan Science Advisory Team (SAT) Presentations to the Blue Ribbon Task Force

Dr. Steve Gaines and Dr. Mark Carr

“Evaluation of Central Coast MPA packages 1, 2, 3, S, and AC”

March 14-15, 2006: Seaside

Central Coast Project, Agenda Item 5

Dr. Steve Gaines, Dr. Mark Carr, Charles Steinback (for Astrid Scholz)

“Assessment of MPA Packages”

January 31-February 1, 2006 : Morro Bay

Central Coast Project, Agenda Item 7

Dr. Steve Gaines

“MLPA Master Plan Science Advisory Team presentation on ecological networks of marine protect areas”

November 29-30, 2005: Seaside

Research, Agenda Item 2

Dr. Mark Carr

“SAT Analysis of MPA Packages”

“Preliminary Evaluation of Proposals for Candidate MPA Packages in the Central Coast Study Region”

November 29-30, 2005: Seaside

Central Coast Project, Agenda Item 4C

Dr. Steve Gaines

“SAT Analysis of MPA Packages”

“Draft Size and Spacing Analysis of Candidate MPA Packages in the Central Coast Study Region”

November 29-30, 2005: Seaside

Central Coast Project, Agenda Item 4C

Dr. Steve Paumbi

“SAT Analysis of MPA Packages”

“Monitoring and evaluation summary for MPA systems”

November 29-30, 2005: Seaside

Central Coast Project, Agenda Item 4C

Mr. Kenneth Schiff

“MLPA Master Plan Science Advisory Team presentation on water quality”

November 29-30, 2005: Seaside

Research, Agenda Item 12

Dr. Louis Botsford

“MLPA Master Plan Science Advisory Team presentation on population persistence (or the importance of big, old rockfish)”

September 28, 2005: San Luis Obispo

Research, Agenda Item 9

*California Marine Life Protection Act Initiative
Science and Management Presentations to the MLPA Blue Ribbon Task Force and
MLPA Central Coast Regional Stakeholder Group
Revised May 11, 2006*

Dr. Mark Carr

“MLPA Master Plan Science Advisory Team presentation on larval dispersal and recruitment”

September 28, 2005: San Luis Obispo

Research, Agenda Item 10

Dr. Rick Starr

“MLPA Master Plan Science Advisory Team presentation on adult movement and neighborhoods”

September 28, 2005: San Luis Obispo

Research, Agenda Item 11

Dr. Mark Carr

“MLPA Master Plan Science Advisory Team presentation on marine ecosystems and ecosystem services”

July 11-12, 2005: Santa Barbara

Research, Agenda Item 11

Dr. Rikk Kvitek

“MLPA Master Plan Science Advisory Team presentation on marine habitats”

July 11-12, 2005: Santa Barbara

Research, Agenda Item 12

Dr. Linwood Pendleton

“MLPA Master Plan Science Advisory Team presentation on the use of economic data in the design and evaluation of MPAs”

July 11-12, 2005: Santa Barbara

Research, Agenda Item 13

Dr. Mark Carr

“Expert panel on defining a network of marine protected areas, especially as relevant to the final draft master plan framework”

April 11-12, 2005: Pasadena

Research, Agenda Item 5A

Laura Rogers-Bennett

“Expert panel on the science and research of marine resources, especially as relevant to the preliminary draft master plan framework”

February 22-23, 2005: Monterey

Research, Agenda Item 3C

Dr. Richard M Starr

“Expert panel on the science and research of marine resources, especially as relevant to the preliminary draft master plan framework”

February 22-23, 2005: Monterey

Research, Agenda Item 3D

Other Science and Management Presentations to the Blue Ribbon Task Force

John Ugoretz, (Nearshore Ecosystem / MLPA Coordinator, DFG)

“An overview of existing fishery regulations”

January 31-February 1, 2006 : Morro Bay

Managing Marine Ecosystems and Fisheries Management, Agenda Item 3

Tom Barnes (Senior Biologist Specialist, CDFG)

“Changes in fisheries practices in recent years”

January 31-February 1, 2006 : Morro Bay

Managing Marine Ecosystems and Fisheries Management, Agenda Item 4

Dr. Jennifer Casselle (University of California at Santa Barbara)

“Expert panel on defining a network of marine protected areas, especially as relevant to the final draft master plan framework”

April 11-12, 2005: Pasadena

Research, Agenda Item 5B

Dominic Gregorio (State Water Resources Control Board Ocean Standards Unit)

“Expert panel on defining a network of marine protected areas, especially as relevant to the final draft master plan framework”

April 11-12, 2005: Pasadena

Research, Agenda Item 5C

Alfred Wanger (California Coastal Commission)

“Expert panel on defining a network of marine protected areas, especially as relevant to the final draft master plan framework”

April 11-12, 2005: Pasadena

Research, Agenda Item 5D

Dr. Tundi Agardy (Sound Seas)

“Expert panel on the science and research of marine resources, especially as relevant to the preliminary draft master plan framework”

February 22-23, 2005: Monterey

Research, Agenda Item 3A

Dr. Alec MacCall (NOAA Fisheries)

“Expert panel on the science and research of marine resources, especially as relevant to the preliminary draft master plan framework”

February 22-23, 2005: Monterey

Research, Agenda Item 3B

John Ugoretz (MLPA Policy Advisor, DFG)

“Mapping Resources, Regulated Areas, Uses and Actors”

January 10-11, 2005, Long Beach

Research, Agenda Item 8

SAT and Other Presentations to the Central Coast Regional Stakeholder Group

Dr. Steven Gaines

“Ecological networks of marine protected areas”

November 9-10, 2005: Cambria

MLPA Master Plan Science Advisory Team (SAT) member presentation

Dr. Louis Botsford

“Population persistence (or the importance of big, old rockfish)”

October 5-6, 2005: Monterey

MLPA Science Advisory Team (SAT) member presentations

Dr. Mark Carr

“Larval dispersal and recruitment”

October 5-6, 2005: Monterey

MLPA Science Advisory Team member presentations

Dr. Rick Starr

“Adult movement and neighborhoods”

October 5-6, 2005: Monterey

MLPA Science Advisory Team (SAT) member presentations

John Ugoretz and Deb Wilson-Vandenberg (Research Manager I, DFG)

“CDFG update on groundfish hotspots”

October 5-6, 2005: Monterey

John Ugoretz (Nearshore Ecosystem / MLPA Coordinator, DFG)

“CDFG presentation on groundfish hotspots”

September 7-8, 2005: Cambria

Dr. Mark Carr

“Presentation on marine ecosystems and ecosystem services”

August 10-11, 2005: Monterey

Presentations from Science Advisory Team and discussion

Dr Rick Starr

“Presentation on marine habitats”

August 10-11, 2005: Monterey

Presentations from Science Advisory Team and discussion

Dr. Linwood Pendleton

“Presentation on the use of economic data in the design and evaluation of MPAs”

August 10-11, 2005: Monterey

Presentations from Science Advisory Team and discussion

Dr. Charlie Wahle (National MPA Center)

“Review and discuss: ‘How is your MPA doing’”

July 7-8, 2005: Morro Bay
