To Blue Ribbon Task Force (MLPA)

Subject; Self nomination to North Coast Regional Stake Holder Task Force

Kirk Sparks (Eco-Nutrients, Inc.)
P.O. Box 1068
Crescent City, Ca. 95531

Email address: ksparks@econutrients.com
Phone # 707 954 3351

I am one of the original investors of Eco-Nutrients, Inc back in 1992 and have years of experience in dealing with various issues pertaining to fishery , harbor , commercial fisherman , Del Norte Solid Waste Management Authority, Calif. Water Quality Control Board, Air Quality Control Board. I have a well rounded basis of interaction between many private interest groups and state agencies, therefore, compromise to facilitate action is nothing new to me. As general manager of Eco-Nutrients, Inc.(an organic fish and kelp fertilizer producer in Crescent City) my responsibilities are wide and diverse and require excellent communication skills and understanding among various individuals and groups. When I make a commitment, I hold to it, and the task force is such a commitment.

I served several years on the Del Norte Solid Waste Task Force. Our objective was to streamline the solid waste stream, reduce blight, increase recycling of discarded products, diversion of 2,000 tons of fish carcasses annually from the waste stream.

I have a total commitment to seeing the process thru from beginning to end. I will be in communication with the Del Norte Board of Supervisors, fisheries, individual fisherman, kelp harvesters, harbor master, tribal leaders, general public, and Zack Larson.

I am proficient on the internet, phone, fax and up front and personal.

If nominated to the task force I will do all in my power to facilitate an acceptable compromise dedicated to the common interest of the various stake holders and to implementing workable MPA's within the system of the MLPA.

Thank you,

Kirk Sparks
Eco-Nutrients, Inc. Gen. Mngr.
